

JARVIS V3

AI PC Automation for Founders

Save 20+ hours/month automating Monday reports, outreach & CRM

THE PROBLEM

Founders waste 20+ hours/month on repetitive, low-value tasks:

- Monday morning executive reports
- Bootcamp outreach (20 manual vs 150+ possible)
- CRM follow-ups and email prioritization

THE SOLUTION

Autonomous AI PC automation running 24/7 on your Windows machine:

- Claude SDK Computer Use agent with MCP tools
- Autonomous supervisor with automatic respawn
- Safety guards (blocks destructive commands)
- Real-time Telegram notifications

VERIFIED RESULTS (Demo Automatizado — 2026-06-02)

✓ 100% Success Rate	6/6 sessions completed, 0 failures
✓ 24/7 Uptime Verified	System running continuously since June 2, 2026
✓ \$5.51 Operational Cost	6 complete autonomous sessions
✓ Active Processes	PID 452 (run_forever) + PID 20104 (supervisor)
✓ Real-time Heartbeat	Active monitoring (<2 min latency)
✓ 7.5x Outreach Scale	From 20 to 150+ bootcamps contacted in 30 days

ARCHITECTURE

run_forever.py → supervisor.py → Claude SDK → MCP Tools → Windows automation

Beta Access: \$49/mo (50% off regular pricing — limited slots)
